CoverSafe

COVERSAFE MAT REPAIR SERVICE

TO ENSURE YOUR COVERSAFE MATS ARE IN OPTIMAL WORKING CONDITION, WE PROVIDE A COVERSAFE REPAIR SERVICE.

OXFORD SAFETY CoverSafe mats offer both a vital fall arrest system and a flexible working platform for all operatives working in and around exposed roof areas. It is important that sites have processes in place to check all mats prior to each use.

To support our customers and ensure the longevity and continued safe working of our products, we offer a full repair service for all purchased mats.

The following document provides full guidance on how to check the CoverSafe mats and how we can repair any faulty or damaged mats either on-site or back at our repair centre in Bicester.

No. of CoverSafe Mats	Method	Timeframe
Repair up to 4	Customer to send these back directly	Return to the customer within 7 working days
Repair 5 – 25	OSC repair engineer will repair on site	Repaired on-site
Repair 25 and over	Customer to palletise and wrap onsite then OSC will arrange collection	Return to site within 14 working days

INNOVATIVE PATENTED SAFETY SOLUTIONS

CHECKLIST

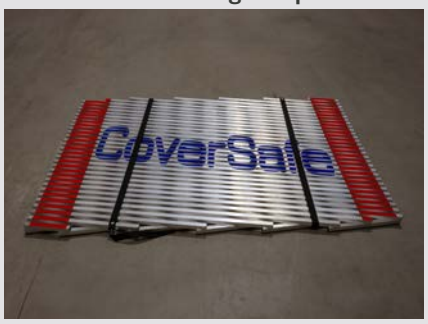
CoverSafe Mats	
Does the mat open and close easily? ***Please keep your fingers out of the way when opening and closing the mats.***	Y / N
Are there two straps attached to the mat and are they in full working order? (Straps that have any cuts, show signs of fraying or missing buckles are classed as damaged)	Y / N
Does the mat have a complete set of bars on the top side of mat?	Y / N
Does the mat have a complete set of bars on the bottom of the mat?	Y / N
Does the mat have 4 finger bars in place in the middle of the mat? (Bottom side only)	Y / N
Are all the rivets in place and undamaged? (Bottom side only)	Y / N

If you answer no to any of the above questions, ***please do not use the mat*** and put it into your 'site quarantine' to ensure it cannot be used prior to repair. The integrity of the mat to hold a spread weight of 150kg becomes void due to the damage to the mat. (Straps not included)

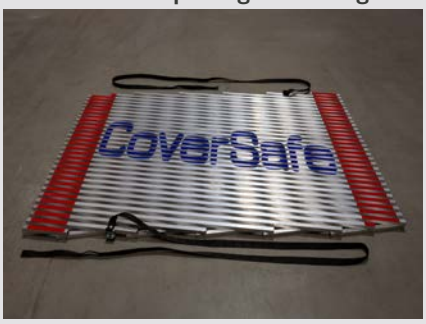
Contact Oxford Safety Components on **sales@oxfordsafety.com / 01869 323282** who can advise and quote on next steps for the appropriate repair of the mat.

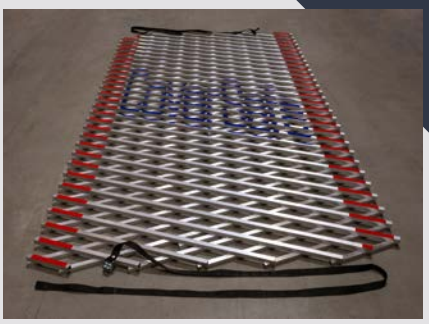
WHAT TO LOOK FOR

CoverSafe – 2 Fixing straps



CoverSafe – Opening & Closing





CoverSafe Serial Number

Serial Number is located on bar on the underside of the mats

CoverSafe – Rivets

Each hole on bottom of mat will include a fully secured rivet
